THEORY OF THE EARTH

1. The Earth is a sphere, and its surface is covered by water and land.

2. The land is divided into continents and islands.

3. The water is divided into oceans, seas, and rivers.

4. The atmosphere is the layer of gas surrounding the Earth.

5. The interior of the Earth is divided into the crust, the mantle, and the core.

6. The crust is the outermost layer of the Earth.

7. The mantle is the layer of the Earth between the crust and the core.

8. The core is the innermost layer of the Earth.

9. The Earth is made of different materials, such as rocks, metals, and gases.

10. The Earth is constantly changing, and its surface is always being reshaped.

11. The Earth is the only planet in our solar system that has life.

12. The Earth is a very special and unique planet.
